Eager to start a Full Stack Developer career, contribute to dynamic teams, and grow technically and professionally.

PROJECT

Fashionwerk – Responsive Fashion Website

-Tech Stack: HTML, CSS, GitHub Pages

Fashionwerk Website 🔗

- Designed and developed a fully responsive static fashion website showcasing product collections, brand highlights, and promotional content.
- Implemented clean layouts and smooth navigation using modern HTML/CSS techniques and hosted the site on GitHub Pages for easy sharing.

Online Shopping Store

- HTML5, CSS3, JavaScript,MySQL,Bootstrap

- Developed a responsive online shopping website where users can browse products, add them to the cart, and place orders.
- Created interactive front-end features using JavaScript and styled the layout with Bootstrap for a modern user experience.
- Used MySQL to manage backend data including product details, customer records, and order history.

Notes Manager

-HTML, CSS, JavaScript, React.js

- Developed a responsive note-taking application using React.js, allowing users to create, edit, and delete personal notes.
- Designed a clean and responsive user interface using CSS Flexbox for a seamless experience on all devices.
- Applied form validation to ensure user inputs are not empty before creating/editing a note.
